

## TUGAS GITHUB TOS

Nama : Alessandro Muh. Daffa Koniyo

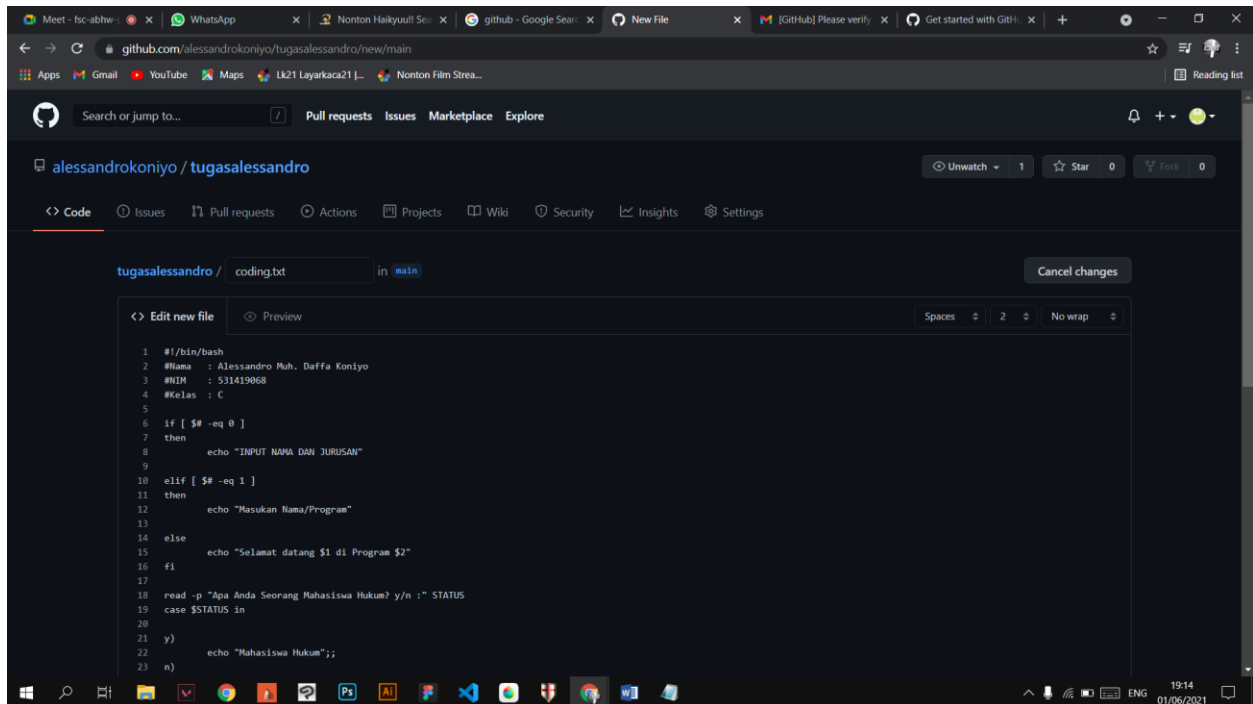

NIM : 531419068

Kelas : C

- Membuat Repository Baru

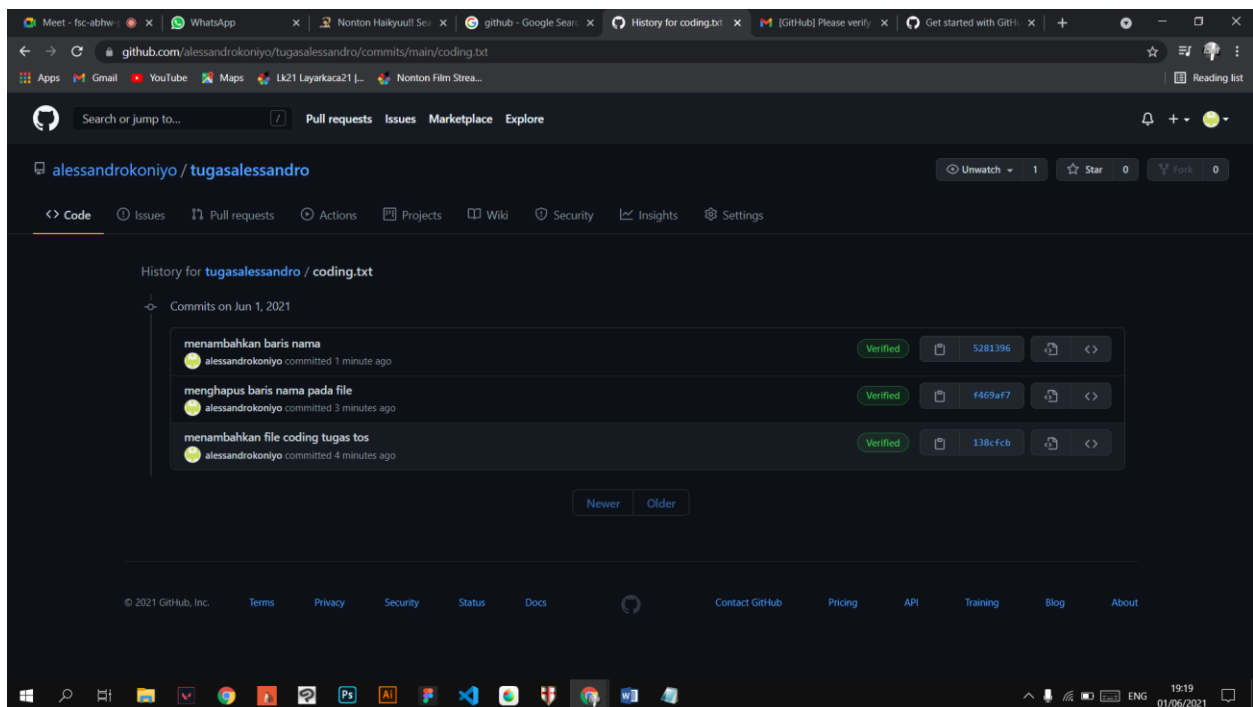

- Membuat File Baru berisi Coding SHELL

The screenshot shows the GitHub web interface for the repository 'alessandrokonioy / tugasalessandro'. The 'Code' tab is selected, and a new file named 'coding.txt' is being edited in the 'main' branch. The code is a shell script that prompts the user for their name and program name, then prints a welcome message and a status prompt. The code is as follows:

```
1 #!/bin/bash
2 #Nama : Alessandro Muh. Duffa Konioy
3 #NIM : 531419068
4 #Kelas : C
5
6 if [ $# -eq 0 ]
7 then
8     echo "INPUT NAMA DAN JURUSAN"
9
10 elif [ $# -eq 1 ]
11 then
12     echo "Masukan Nama/Program"
13
14 else
15     echo "Selamat datang $1 di Program $2"
16 fi
17
18 read -p "Apa Anda Seorang Mahasiswa Hukum? y/n : " STATUS
19 case $STATUS in
20     y)
21         echo "Mahasiswa Hukum";;
22     n)
23
```

- History Pengeditan File yang Dilakukan dengan Menghapus dan Menambahkan baris

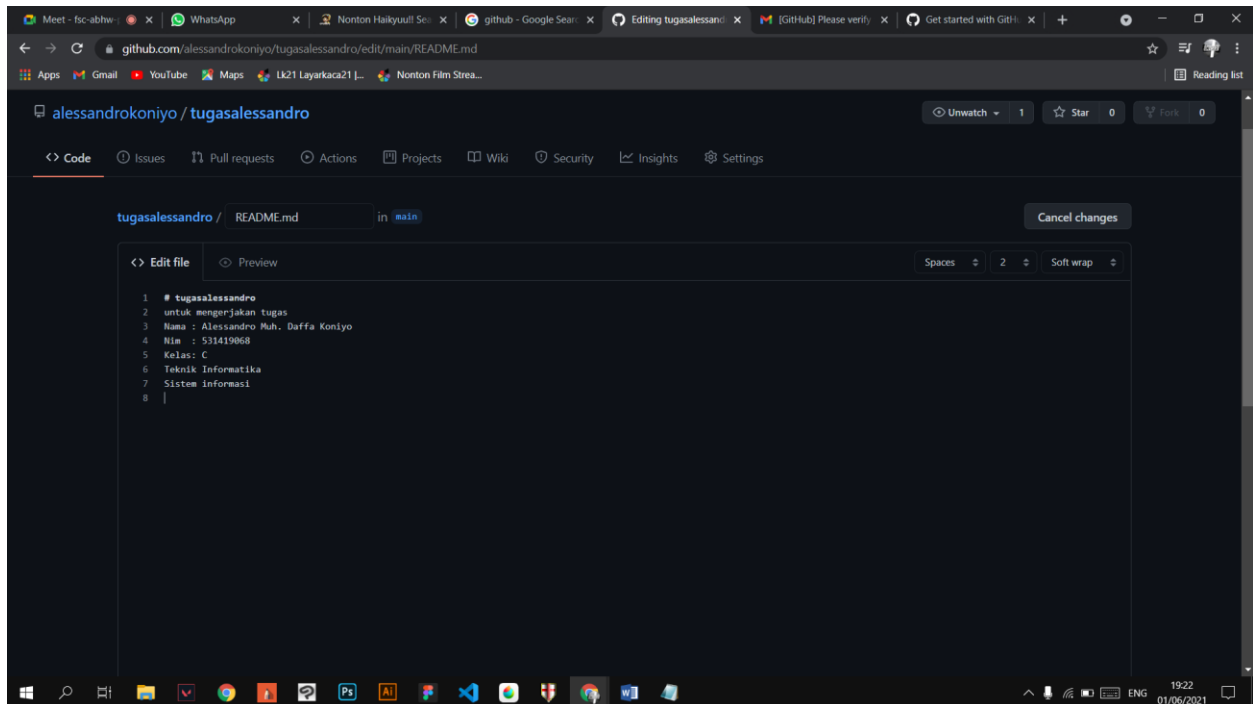

The screenshot shows the GitHub commit history for the file 'coding.txt' in the repository 'alessandrokonioy / tugasalessandro'. The history is filtered for commits on June 1, 2021. The commits are as follows:

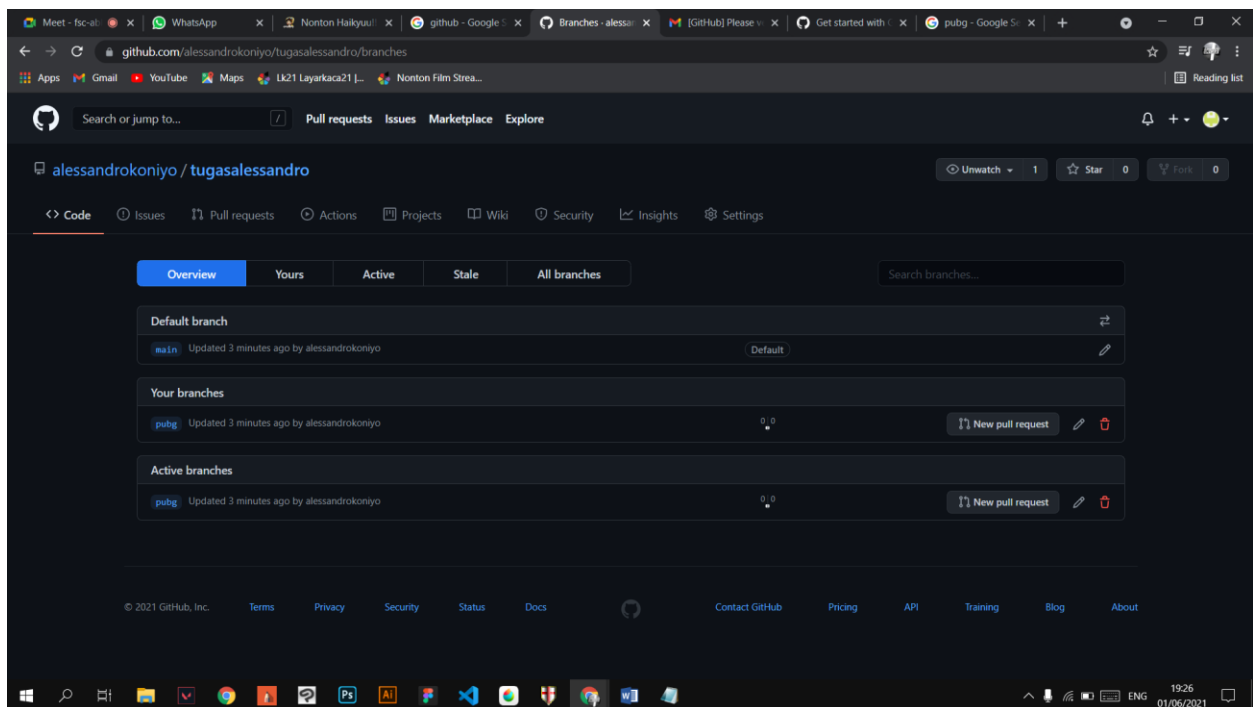

Commit Message	Author	Time	SHA-1
menambahkan baris nama	alessandrokonioy	committed 1 minute ago	5281396
menghapus baris nama pada file	alessandrokonioy	committed 3 minutes ago	4459af7
menambahkan file coding tugas tos	alessandrokonioy	committed 4 minutes ago	138cfcb

The interface includes buttons for 'Newer' and 'Older' commits, and a footer with GitHub's terms, privacy, and contact information.

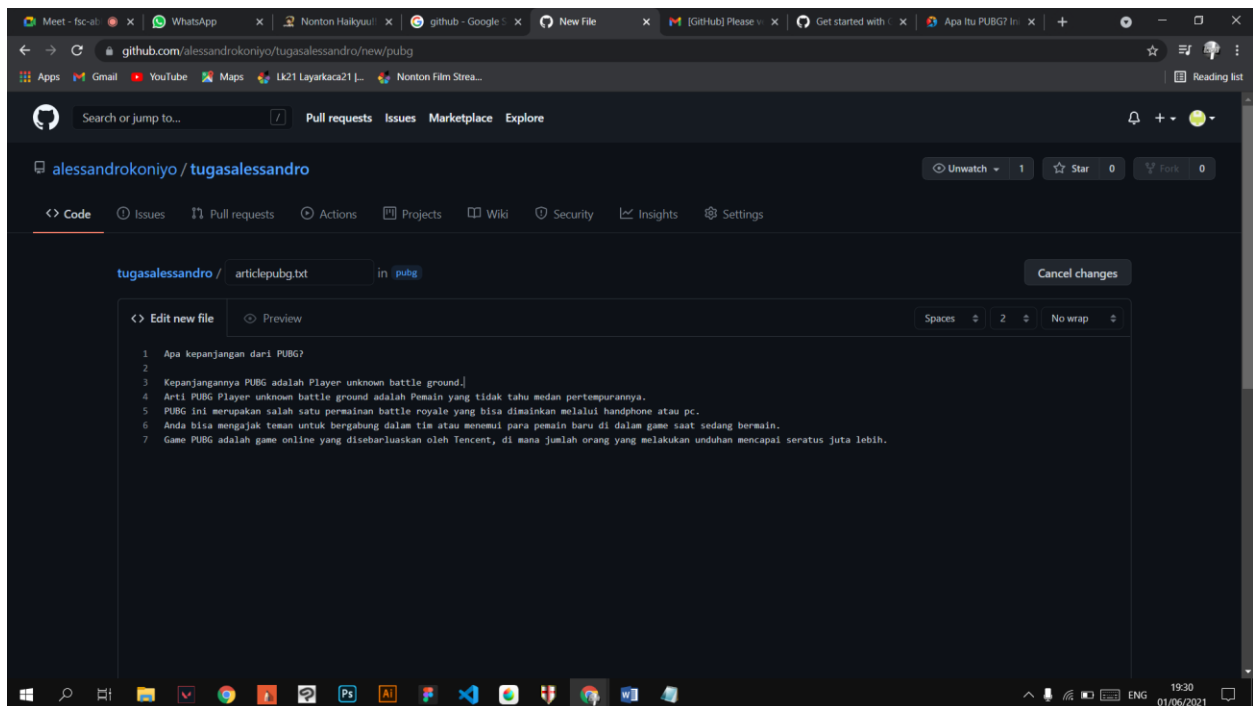

- Mengedit README agar lebih Informatif

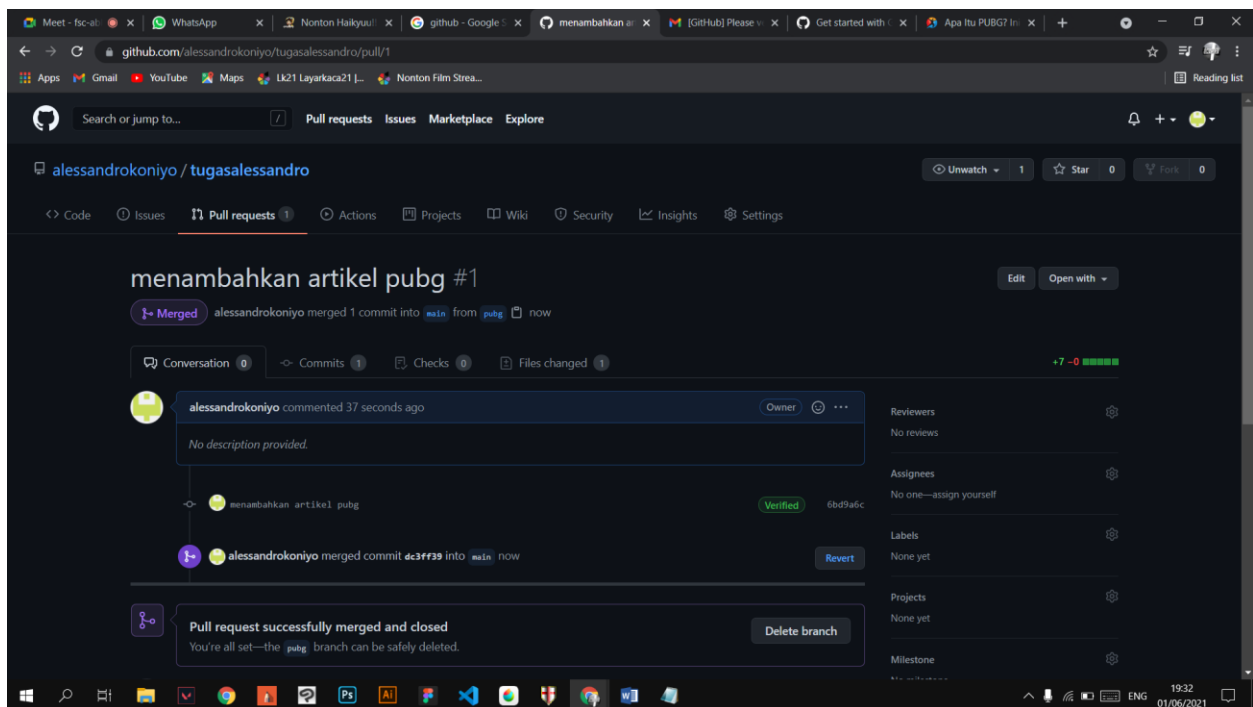

- Menambahkan Branch baru bernama PUBG

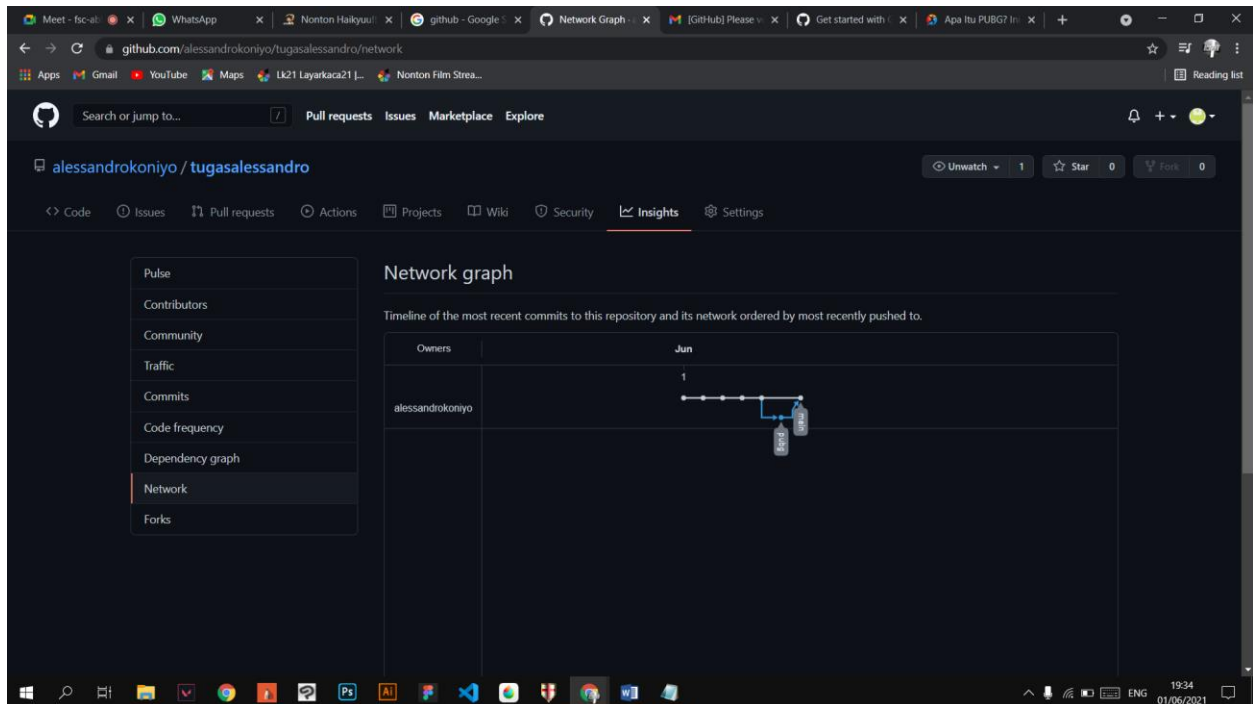

- Membuat file berisi artikel mengenai PUBG

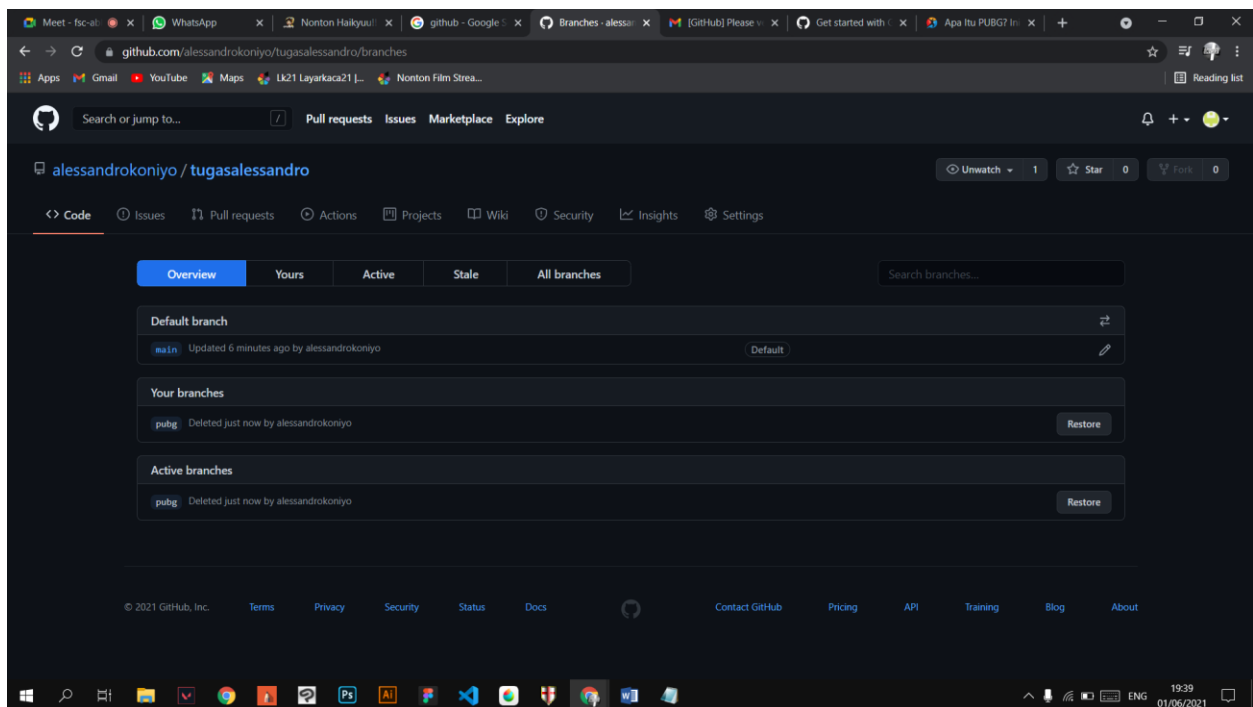

- Melakukan Merge pada Branch PUBG ke Branch Main (Pull Request)

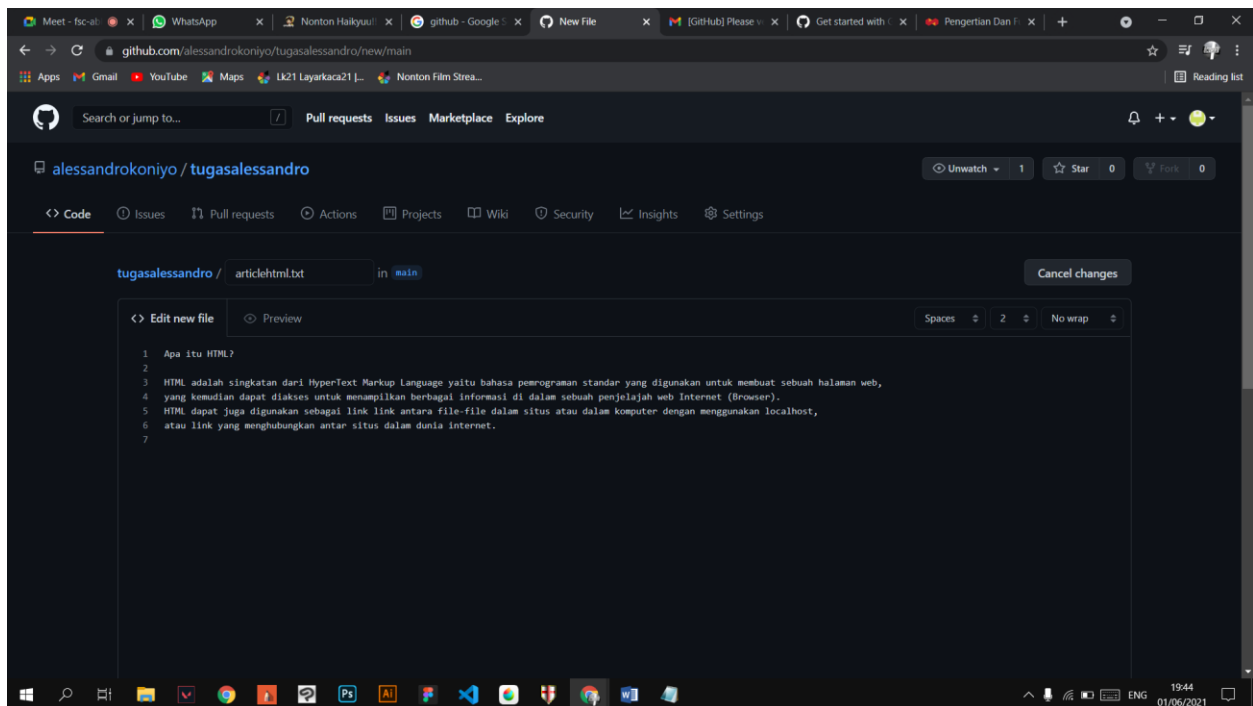

- Grafik Network setelah Pull Request

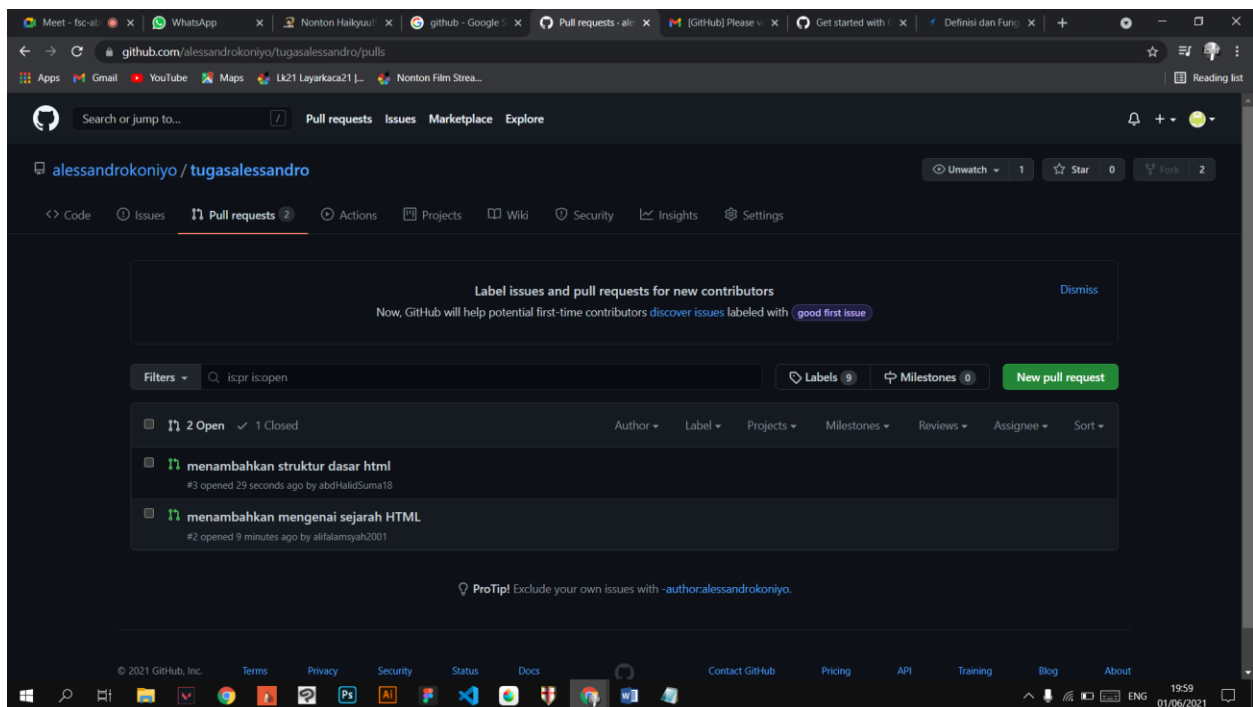

- Menghapus Branch PUBG

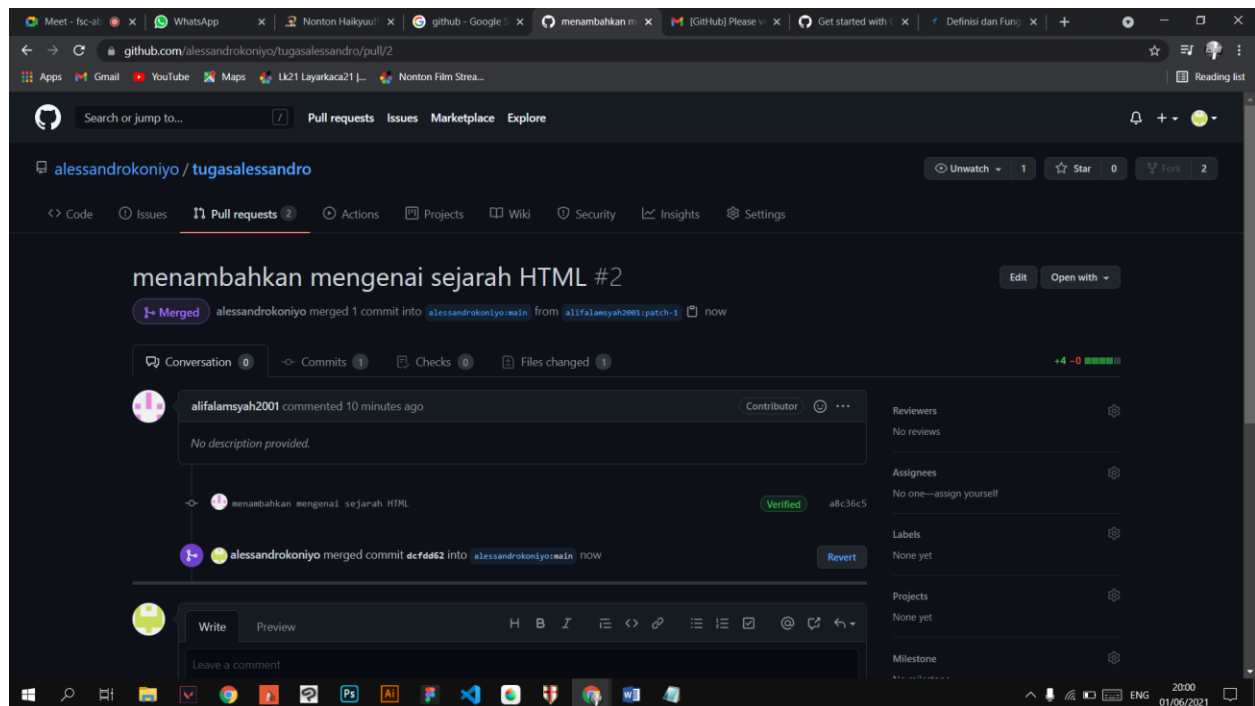

- Menambahkan file baru untuk kolaborasi dengan dua teman lainnya

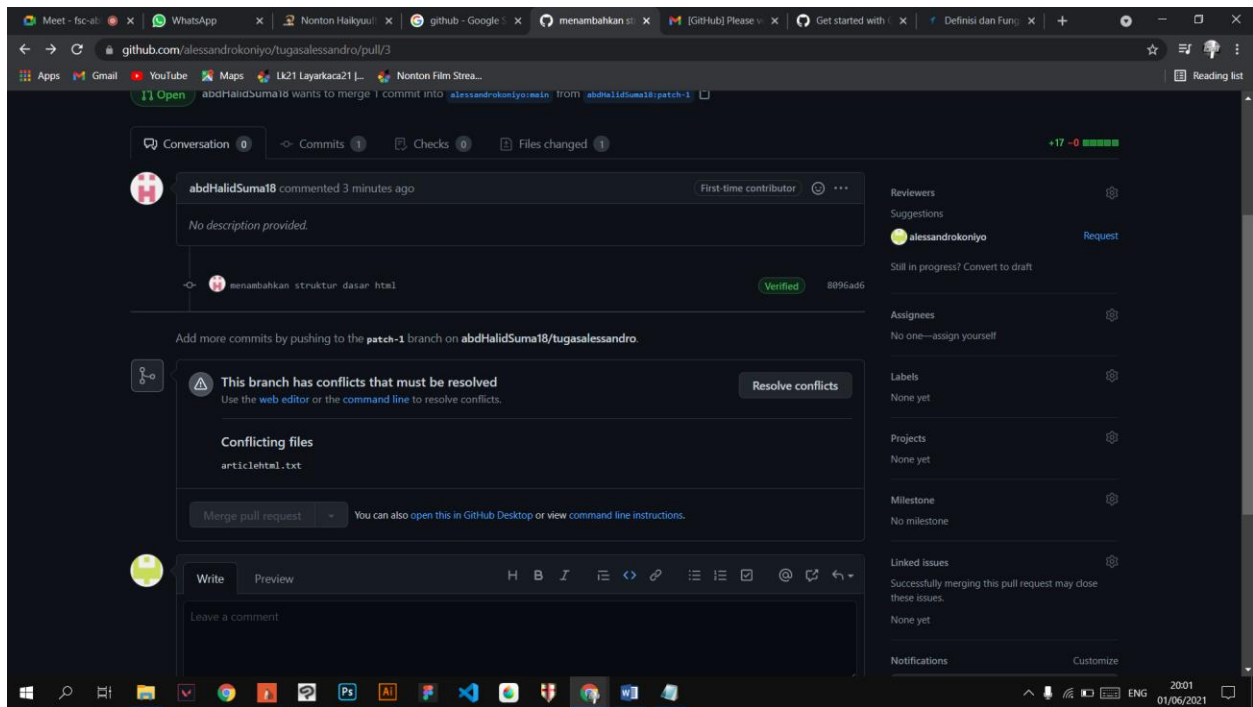

- 2 Permintaan Pull Request yang diterima dari teman kolaborasi

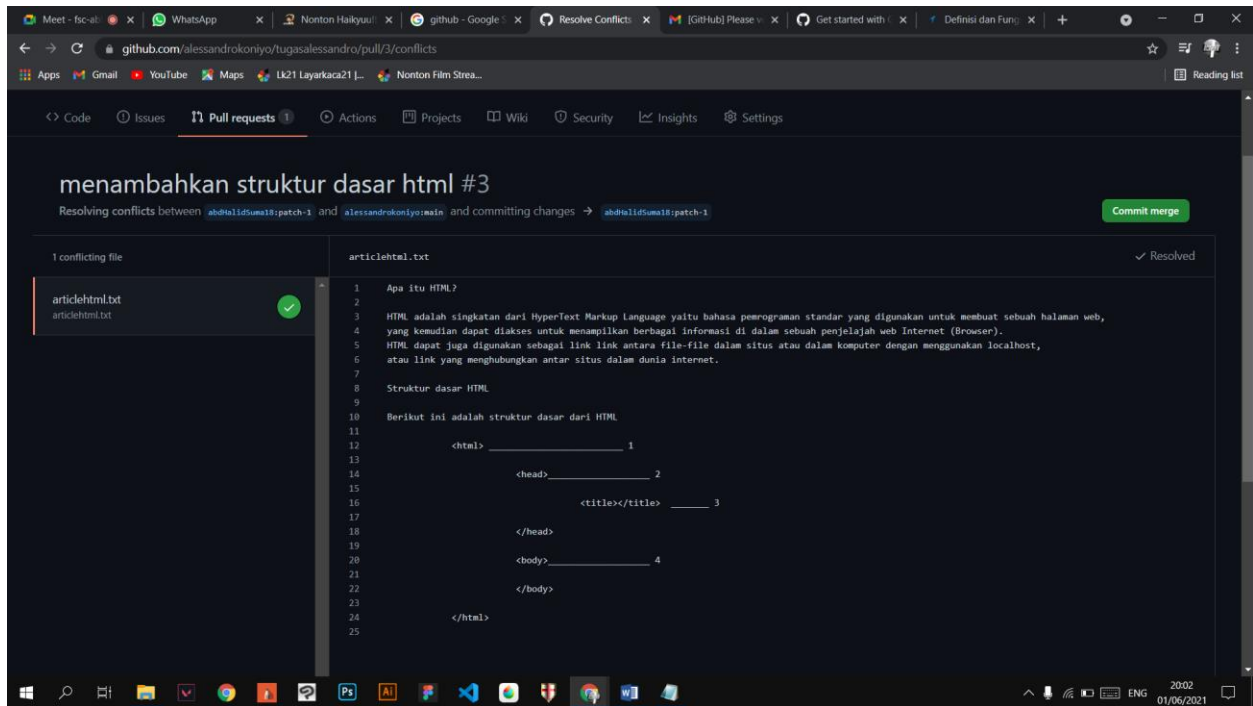

- Menerima Salah satu Pull Request (Merge Branch) agar bergabung ke Branch Main

- Menerima Pull Request kedua dan Menemukan adanya Conflict

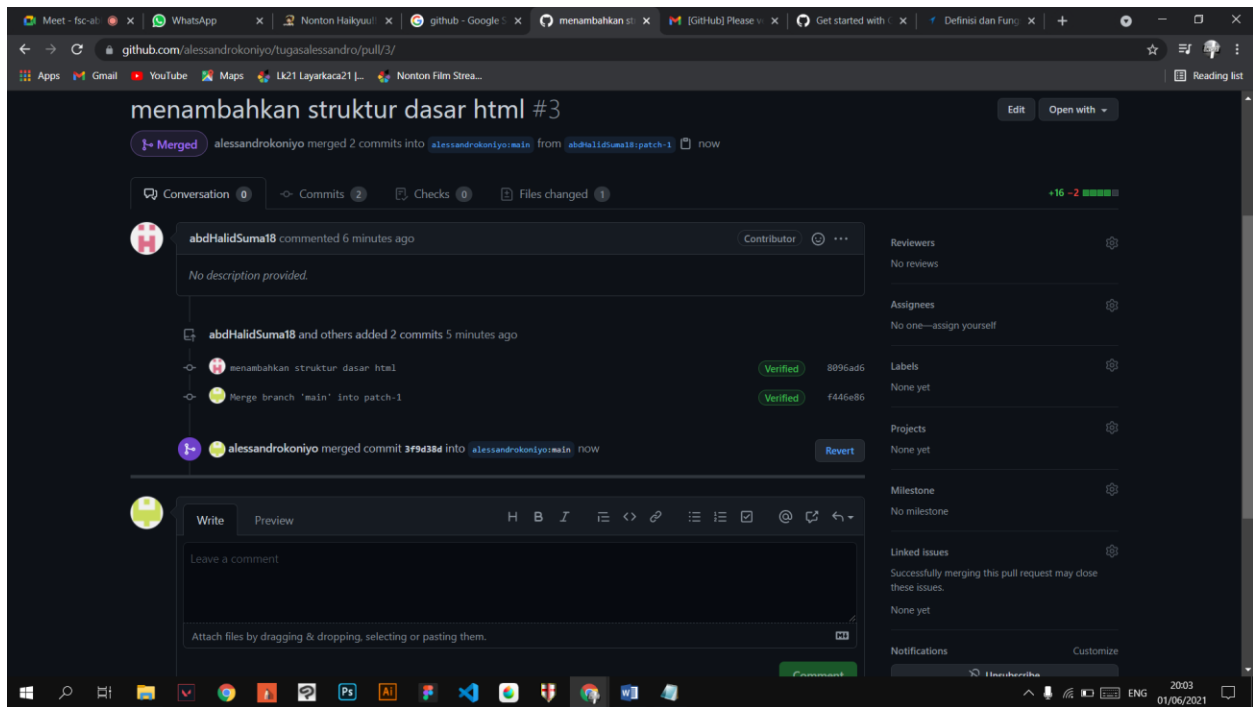

- Menyelesaikan Conflict yang ada

- Melakukan Merge setelah Conflict berhasil di selesaikan

- Grafik Network Setelah semuanya selesai
